Semester- I

Course Title:	Advanced Nutrition and Food Science	Course Code: 24MHM9101T
Total Lecture hour 60		Hours
Unit I	1. Nutritional requirements and RDA for the entire life span according to the physiological needs – Infancy, Preschoolers, School children, Adolescents, Adults, Elderly 2.Body Composition 3.Human digestive system a) Structure and functions of different organs b) Digestion, absorption of carbohydrates, proteins, fats and vitamins	16
Unit II	Etiological, clinical features with emphasis on dietary. management and preventive measures related to food - GERD, constipation, diarrhea; Celiac disease; Hepatitis, cirrhosis; Hypertension, coronary heart disease, hyperlipidemia; Diabetes mellitus; Obesity; Cancer; HIV/AIDS.	17
Unit III	Health Implications of junk foods, processed foods and convenience foods. Functions of foods: physiological and non-physiological. Cooking methods: types, merits and demerits.	12
Unit IV	Cereals and millets: structure, composition, processing techniques, effect of heat and acid, functions of starch in cookery. Legumes, nuts and oil seeds: composition, processing techniques, effect of heat, acid and alkali. Fruits and vegetables: types, composition, importance in diet, pigments, changes caused by heat and alkali. Milk and milk products: types, composition, physical and functional properties, properties, processing techniques, effect of heat, acid and alkali.	15
Reference Books:

Course Title:	Human Development	Course Code: 24MHM9102T
Total Lecture hour 60		Hours
Unit I	Meaning, definition and scope of human development. Principle of growth and development. Stages of prenatal development and Factors affecting prenatal development. Basic Reflexes, Physical, Motor and Language and Emotional development during infancy, Development tasks. Theoretical approaches to early personality development - psychosexual theory of Sigmoid Freud, Psycho Social Theory of Erik Erickson and Piagets cognitive development theory of sensory motor and pre - operational stage.	17
Unit II	Developmental Tasks. Significance of early years, physical, Motor, Social, Emotional and language development in early, middle and late childhood. Theoretical contributions of Erickson, Piaget and Freud in understanding development. Play- Significance, types, characteristics of play. Home, school and peer relationship: problems and adjustments.	12
Unit III	Adolescence: Development tasks, physical, emotional, social, speech and Intellectual development, Moral Development (Kohlberg's Moral Theory) Puberty	15

	and Pubertal Changes, sexual Maturity. Theoretical contributions of Erickson, Piaget and Freud in understanding development. Challenges, adjustment and development tasks of early, middle and late adulthood..	
Unit IV	Theoretical understanding of adulthood, with reference to Erikson and Freud. Significant issues in adulthood: Live-In-Relationship, Being Single, Divorce, Remarriage, DINKS. Adoption; Menopause and Andropause, mid life crises and emptying of nest. Interpersonal and Intrapersonal adjustments, adjusting to declining physical/motor and sensory capacities, Adjustment with changes in familial situation, loss of life partner	16

Course Title:	Textiles fibers and their properties	Course Code: 24MHM9103T
Total Lecture hour 60		Hours
Unit I	Textiles fibers and their properties • Classification of fibers • Primary and secondary properties of textiles fibers. • Manufacturing process, properties and use of following fibers - Cotton, Jute, Silk, Wool, Rayon, Polyester, and Polyamide. Yarn construction • Basic principles of yarn making - Mechanical spinning (cotton spinning), Chemical spinning Wet, Dry, and Melt. • Types of yarns - Simple, Novelty and Textured yarns. • Yarn Twist and Yarn Numbering system	16
Unit II	Fabric Construction Methods • Weaving. Knitting, Braiding, Lacing and Netting. • Weaving - Types of hand looms, parts of a loom, stages in weaving, process. • Classification and construction of basic weaves: plain, twill & satin. • Fabrics made from fibers Peltig and Bonding. Finishing • Definition and importance of finishing. • Classification of finishes. • Preparatory Process - Desiring, Tendering, Scouring and Bleaching. • Mechanical finishes - Sizing, Singeing, Mercerization, Napping, Embossing and Calendaring. • Functional finishes Wash and wear, Wrinkle resistant, Water resistant and repellent, Flame Retardant, Soil Repellent, Mothproof and Anti-static.	17
Unit III	Recent developments in textiles • Nonwoven textiles. • Technical Textiles- Meaning, classification, manufacturing techniques and future scenario.	12

21-

	• Smart textiles - Factors affecting the selection and uses. • Various denim finishes: Bio-polishing, bio-washing and softening finishes, Eco-friendly finishing with enzymes.	15
Unit IV	Apparel Selection & Care	
	• Selection of suitable fabrics and garments for Age - infants, toddlers, pre-school children, school going children, adolescents. • Climate, occasion, occupation, fashion, figure. • Clothing for people with special needs: maternity and lactation, old age and physically challenged. • Selection of readymade garments • Appearance - Size, design, line and colors, Fabric – Durability, ease of care. • Workmanship – Cutting, sewing, finishing, cost and fitting.

Semester – II

Course Title:	Introduction to Basic Design	Course Code: 24MHM9201T
Total Lecture hour 60		Hours
Unit I	Element of design Line: Types of line: straight and curved etc., Illusion of lines, Emotional significance, Form: Definition, Classification, Requirements of a good form Textures: Definition, Types: visual, tactile, Significance of texture Light: Types of light: natural and artificial, Emotional significance artificial lighting system, Shape and Space: Definition, Classification: open and close Pattern: Definition Motifs: naturalistic, stylized, abstract. Geometric, Characteristics of a good pattern Color: Introduction, Theories, Characteristics, Warm & Cool colors, Tints & shades, Color wheel, Color Schemes, Emotional effects of color Principles of design - Balance: Definition, Types - Rhythm: Definition, Ways of achieving rhythm: repetition of shapes, progression of size, continuous line movement, radiation - Proportion: Definition, Scale - Emphasis: Definition, Ways of achieving emphasis: grouping of objects, use of contrasting colour, use of decoration, use of back ground space, Where to place the emphasis: law of margin - Harmony: Definition, Methods of achieving harmony: line & shape, colour, ideas, size & texture	17
Unit II		17
Unit III	Application of design in home Management Element of design: Line, Form, Textures, Light, Space, Pattern, Color Principle of design: Balance, Rhythm, Proportion, Emphasis, Harmony Use of elements and principles of design in interiors of room: Master's Bed room, Living room, Children bed room, Drawing room, Bath room, Kitchen	14
Unit IV	- Elements and principles of art applied in textile designing - Effects and function of elements and principles of art in dress, Design selection in relation to figure, complexion climates, occasion and fashion. Concept of Repeat in Design - Types of Repeats: Plain, Vertical, Horizontal, Twill, Mirror, Half step, All over - Layout of design - pattern repeat, drop devices and bases, - Special considerations in design selection and layout of pattern - stripes, checks, plaids, prints. - Colour & colour schemes, Psychological effects of colour, Importance of colour, Study of colour theories, colour wheel, colour in clothing.	12

Course Title:	Family Resource Management	Course Code: 24MHM9203T	Hours
Total Lecture hour 60			
Unit I	Housing - Function & family need of housing. - Principles of house planning: aspect, prospect, grouping of room, roominess, privacy, orientation, circulation, flexibility, spaciousness, aesthetics economy, ventilation services. - Site selection: Vegetation: Size, Soil types drainage, Contour (shape), Orientation - Elements and principles of arts and design as related to interior decoration with specific reference to color and light. - Floor decoration with use of elementary art Table setting & etiquettes.		15
Unit II	Interior designing Room arrangement and decoration - arrangement of furniture, furnishings and accessories in various rooms. Kitchen planning, importance of counters, storage principles, working heights. Selection and care of household equipment (without reference to any specific equipment). Household waste & its management by 3R. Flower decoration - Basic equipment's - Vases and containers - Preparing plant material - Shaping an arrangement Furniture - Types of furniture - Selection use & care - Arrangement of fl. Furniture in various rooms		16
Unit III	Resource Management Meaning, definition and importance of home management Process of management: - Planning - Organization - Implementation - controlling and evaluation Introduction to motivational factor (meaning and types) - Values - Goals - Standards - Decision Making - Resources Time management: Tools in time management: Time cost, Time norms, Peak loads Work curve and rest periods, Process of managing time		15
Unit IV	Energy Management: - Process of energy management - Fatigue - Body mechanics - Work simplification - Mundel's Classes of changes - Ergonomics: Meaning, importance & its components Money Management		14

	- Family Income: sources & type - Budget: Definition & Process of budget making Saving, investment and raising housing loan: Definition & Objectives, Channels: bank, insurance, post office Consumer problems, rights & responsibilities Seeking redressal to consumer problems with special reference to consumer courts.

Course Title:	Practical – I	Course Code: 24MHM9201P
Contents- - Drawing of color wheel. - Drawing of color Schemes. - Drawing of Tints and Shade Chart - Drawing various types of furniture for all the room of house. Selection of color scheme in rooms- - Master's bed room - Children's bed room - Living room - Dining room - Drawing room - Kitchen - Application of principles in interior decoration drawing each one of them Principles of design - - Balance - Rhythm - Proportion - Emphasis - Harmony - Make a scrap book with following motif types using fabric specimens: - Abstract - Geometrical - Natural - Stylized - Traditional - Creating designs with units like flowers, alphabets - Development of motif - Enlargement & reduction of motifs - Concept of design repeat, layout - Development of design sheets for home textiles: Table Linens (runner, napkin, table cloth) - Developing designs for decorating fabrics for various end uses using traditional motifs and different techniques of tie and dye - Marbling - Pleating and Binding - Folding - Bandhani		

	• Laheria • Tritik/Shibori
--	---

Course Title:	Practical – II	Course Code: 24MHM9202P
Contents- • Writing script for one of the media referred in theory • Production of selected media in Home Science Extension a communication • Pre-testing of the selected media • Use of Selected media in the field • Developing skill in any of the folk media • News and report writing of programme for farm/slum, women		

Course Title:	Practical – III	Course Code: 24MHM9203P
Contents: 1. Project work on money management: • How to open various accounts in the bank. • Filling up of slips/forms of bank and post office. i. Application for draft ii. Cheques iii. Withdrawal slip iv. Money order form v. Application for housing loan 2. Floor decoration: Alpana, Rangoli & Mandana 3. Flower arrangement: fresh and dry arrangements. 4. Table setting 5. Best out of waste (one article) 6. Cleaning of wood, stone, tiles, metal & glass. 7. House plans: • for various income groups (LIG, MIG, HIG) i. Drawing of architectural symbols of house plan ii. Architectural symbols of electricity plan iii. Furniture symbols • Rooms (making any one paper model): Drawing Room, Dining cum leaving room, Children study room, Bed room, Pooja Room • Kitchen planning (making any one paper model) i. One wall ii. Two wall iii. L shape iv. U shape		

Course Title:	Fashion Designing	Course Code: 24MHM9204T
Total Lecture hour 60		Hours
Unit I	Fashion: Definition, history, elements, terminology, cycle, factors affecting fashion, fashion sources, fashion trends in India and abroad.	15

21-
Dy. Registrar
Pandit Deendayal Upadhyaya
Shekhawati University,
Sikar (Rajasthan)

Unit II	Principles and elements of art in dress designing. Anthropometrical Measurement: Concept, importance, technique and precautions. Pattern Making: Methods of drafting, draping, flat pattern, techniques and uses.	16
Unit III	Commercial Pattern: Concept, selection, and use of commercial pattern. Selection of Fabrics: Factors affecting selection of fabric for different garments, Calculating quantity of fabric needed for different garments.	15
Unit IV	Layout Planning: Definition, types of layout, economy of fabric in placing patterns, adjusting fabric to pattern Fitting: Good fit – definition, principles and clues for good fit (case, line, grain, set and balance)	14
